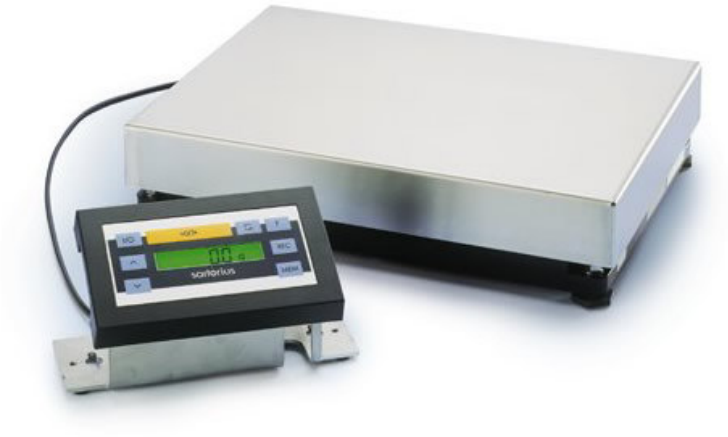
PMA35D Non-Ex and Ex



High capacity paint-mixing scales for paint can sizes up to 35 kg (5 gal.). The Sartorius PMA35D excels in ranges in which standard paint-mixing scales are insufficient, delivering the familiar speed and reliability you've come to expect from Sartorius.

- Corrects non-conforming mixes (optional recalculation feature)
- Especially suitable for mixing in tough ambient conditions
- Rectangular stainless steel weighing pan is removable and features a wrap-around design
- Strong overload protection, side impact protection
- Housing parts resistant to solvents
- Easy-to-clean keypad
- Display holder for either wall or benchtop mounting (2 meters/7 feet of cabling), with wall mount
- Backlit liquid-crystal display
- Conversion mode for other paint can sizes as a standard feature
- Standard data interface
- Country-specific AC adapters with 90-264V, 50-60 Hz
- All models are also available with approval certificates for use in Zone 1 and Zone 2 hazardous areas
