

TopMix Terminal Ex Zone 2

The standard for safe paint mixing in Zone 2 hazardous areas. With Sartorius TopMix you get maximum quality for the highest demands when it comes to safety, user-friendly design in equipping your paint-mixing room.

- Installed directly in Zone 2, it meets the most stringent requirements of the European approval organisations
- Can be safely used in areas exposed to the risk of fire
- All-metal housing, industrial-grade, highly stable plug-in connections, virtually unbreakable monitor glass
- Large, backlit colour monitor
- Practical keypad configuration familiar from standard PC keyboards and the integrated and rugged, joystick-style industrial mouse offers a unique level of operating convenience
- Uncomplicated and reliable linking of the individual components by the Plug & Play method
- Scale, keyboard and mouse are easily connected through an advanced and stable USB link
- One free RS-232C and one free USB port for connecting an additional scale or a printer that is suitable for Zone 2
- Linked directly to a PC that is installed outside a hazardous area, the terminal enables you to conveniently navigate through your paint manufacturer's software right inside your work area.
