

## NOTIFICATION LETTER

### Sartorius Croatia signed an official partnership agreement with the Sartorius Bioanalytics division

April 24, 2023

Sartorius Croatia concluded an amendment to the official partnership agreement with the Sartorius Bioanalytics division for the Republic of Croatia and Slovenia.

Sartorius Croatia, as a leading partner and provider of high-tech laboratory equipment and solutions for the biotechnology industry, is proud to announce that it has signed an official contract with the Bioanalytics subdivision of the Sartorius portfolio for the Republic of Croatia and Slovenia. This contract enables Sartorius Croatia to distribute and provide technical support for a wide range of advanced analytical instruments and solutions, unique in this region.

The devices included in this collaboration include advanced analytical technologies, such as devices for protein and biomolecule analysis based on BLI technology, live cell imaging in real-time inside the incubator, advanced flow cytometry and screening and isolation of cells and colonies. These technologies enable scientists and researchers in biotechnology and pharmaceutical laboratories, as well as in academic institutions, to improve their research and development and accelerate discoveries in the field of health and medicine.

Sartorius Croatia strives to provide the best possible support to users in the region, offering sales and technical support for the Bioanalytics product portfolio. The aim of the cooperation is to improve scientific work and research in the region and to contribute to the development of innovative products and solutions in the biotechnology and pharmaceutical sectors.
